

Research and Analysis Intern Example

Institutional Description

This organization seeks to overcome the situation of poverty for millions of people living in popular settlements, through the joint action of their inhabitants and the young volunteers who work with the organization in nineteen Latin American countries. In Argentina, the organization works in nine provinces and has a powerful leadership team of young professionals who are making a big impact. The organization works together with impoverished communities to improve their living conditions, to promote economic and social development, and to encourage civic action and advocacy.

Description of Project(s)

Primary objective:

- Carry out an evaluation and audit process of a project taking place during 2021-2022 in Buenos Aires with the national government. This is the construction of a Multipurpose Room in the neighborhood of Villa Bote, Escobar (Early Construction Project, ECP).

Objetivo general:

- *Realizar un proceso de evaluación y auditoría de un proyecto llevado a cabo durante 2012-2022 en Buenos Aires con el gobierno nacional. Se trata de la construcción de un Salón de Usos Múltiples en el barrio Villa Bote, Escobar (Proyecto de Obra Temprana; POT)*

Specific objectives:

- Evaluate the participation of the community in the different stages of the project. Carry out and systematize interviews with the different actors.
- Systematize main difficulties and achievements in the execution of the project (internally).
- Generate a report of results and conclusions on compliance with the agreement.

Objetivos específicos:

- *Evaluar la participación de la comunidad en las diferentes etapas del proyecto. Realizar y sistematizar entrevistas a los diferentes actores.*
- *Sistematizar principales dificultades y logros en la ejecución del proyecto (internamente).*
- *Generar informe de resultados y conclusiones sobre cumplimiento del convenio.*
